In the winter semester during the registration periods indicated above students enrol in a physical education course in the USOSWeb, in the same way as they register for their other courses.

Students log in with their data (password and login to the USOSWeb)

They go to the Student tab. They choose registration tab from the left menu and choose registration tab for Physical Education.

They choose the discipline they want to attend and enrol for it.

PLEASE NOTE: before you finally enrol in a course, please read carefully the information contained in the description of the discipline and the file "Presentation" as well as the curriculum of the physical education courses on the website of the Study. For some disciplines you can enrol independently of the USOSWeb.

From Wed, 2 October to Thu, 8 October 2019 students who are not registered in the USOSWeb may do it directly in SWFiS (Waryńskiego 12a Street) at the time of their PE classes (according to the timetable), and enrol in a course of their choice with a teacher on duty (for the places available after enrolment in the USOSWeb)

From Wed, 9 October 2019 students who are not enrolled in PE courses should go directly to sports facilities and enrol there with a PE teacher.

Students can also receive further information in the SWFiS office between 9.00-13.00

Information on the physical education courses and the enrolment can be found on www.swfis.pw.edu.pl.
