

Ambiens is a leading Polish RES consulting company managing and advising environmental, social and permitting projects. Since 2008 we have been successfully supporting photovoltaics as well as onshore and offshore wind farms on every stage of project life cycle. From environmental impact assessment and development through due diligence during M&A and financing processes to taking care of environmental issues on construction and operational phase. Over 100 wind projects across Poland, including Baltic Sea, give us unique practical perspective. We support transformation of Polish energy sector in face of global trends and climate challenges.

Apply if you want to join Ambiens Team as **Biodiversity Consultant Trainee**.
